

UNIVERSITY OF MINNESOTA Driven to Discover<sup>™</sup>

# **UMN-UR Global Animal Health Fellowship Program**

Application instructions

### Background

The Center for Animal Health and Food Safety (CAHFS) at the University of Minnesota (UMN) is one of five World Organisation of Animal Health (OIE) collaborating centers focused on Capacity Building of Veterinary Services for OIE advanced competencies, including research. And has recently gained the status of Veterinary Public Health Reference Center for FAO. As a globally recognized center of excellence in capacity building and the Veterinary Public Health Service Unit at the College of Veterinary Medicine, CAHFS mission is to foster the development of critical thinker practitioners, who will join national and international veterinary services to improve animal health and food safety worldwide for the betterment of society.

The Rwanda School of Veterinary Medicine (SVM) belongs to the College of Agriculture, Animal Sciences and Veterinary Medicine-University of Rwanda (UR-CAVM) an institution that has a multifaceted background and one that has leveraged a diverse and dynamic academic and research environment in various domains of agriculture, animal sciences, and veterinary medicine, to become the premier institution in Rwanda imparting good and affordable education, in animal sciences and veterinary medicine at both undergraduate and postgraduate levels, with the aim of developing the needed capacity to meet national and regional (global) needs.

### Purpose

This fellowship program is the result of a partnership between the School of Veterinary Medicine, at the College of Agriculture, Animal Sciences and Veterinary Medicine, University of Rwanda, and the Center for Animal Health and Food Safety College of Veterinary Medicine, at the University of Minnesota.

This Fellowships Program provides opportunities for motivated, independent students to gain training and research experience, while developing collaborative competencies, with the support of faculty mentors from both institutions on issues related to animal production, food safety, and the safe trade of animals and animal products.

Fellows will be expected to contribute to the study in a role that is appropriate for their course of study and level of training, and specific responsibilities will be discussed and decided between the proposed mentors and the trainee.

UNIVERSITY OF MINNESOTA Driven to Discover<sup>™</sup>

# **Application Dates**

Call for application: **Monday, November 1, 2021** Deadline to apply: **Monday, November 22, 2021** 

Award notification: Week of December 6, 2021

Start Date: December 15, 2021, for a 4-month appointment

# Eligibility

Applicants must be a current School of Veterinary Medicine, at CAVM, University of Rwanda Undergraduate Veterinary Medicine, or Animal Production student. Research focus must be on production animal health, food safety, and veterinary capacity, and service delivery.

### **Benefits**

- The fellowship committee will make available, up to \$500, funding to support the research study based on the scope and budget built by the students with the support of their mentors.
- Be part of the first cohort of fellows participating in this bi-institutional collaboration.
- Students will be invited to participate in a cycle of webinars offered by the UMN-UR partnership to support their training in research methods.

### Mentors

A team of mentors from both universities will be supporting the development of each project to ensure alignment with the overall goals of the fellowship. Mentors will be assigned through the traditional procedures used for final year research projects at the School of Veterinary Medicine, University of Rwanda.

# **Application Components**

Please compile the following materials for your Fellowship application:
